

PIANO LESSONS

Playing the piano is a skill that lasts a lifetime. It teaches students to be creative and expressive, giving them years of enjoyment. Traditional study methods are used to teach music theory and note reading skills. During the school year, private lessons are held before, during, and after school hours. The lesson time is arranged with the classroom teacher to best suit the class schedule and student needs. Lessons are 30 minutes. We present two concerts each year in the school cafeteria, free and open to the public. Students not only display their talents, but also learn the style and etiquette of performance art.

Classes begin this summer in my room at school. Summer lessons are available on Mondays and Tuesdays beginning as early as 7am and available through the evening hours. Schedules are flexible and available on a first come, first served basis. If you are interested in having your child learn to play the piano, return the form below to his/her classroom teacher. I will then call you to discuss scheduling, requirements and tuition. Should you have any questions, please contact me directly at **484-467-5000** or email at **smonotes@aol.com**. Lessons are available to children ages 5 and up. Students currently enrolled in lessons need not fill out this form. A piano or electric keyboard is required at home for regular practice.

Give your child the gift of music!
